A Terrible Visitant. Charles Town, has been appointed to succeed Brigadier General Casey as chief of engineers, United States Army. General Craighill is well equipped for this distinguished position, and the appointment, though not altogether unexpected, gives general satisfaction. In honnring him the President honors himself in the wisdom of his selection, and the General's fellow-townsmen, who hold him in high esteem, will extend their hearty congratulations.

A Terrible Visitant.

Pain is always a terrible visitant, and often domiciles itself with one for life. This infliction is preventible, in cases or rheumatism, by a timely resort to Hostetter's Stomach Bitters, which cheeks the encroachments of this obstinate and daugerous malady at the outset. The term "dangerous" is used advisedly, for rheumatism is always liable to attack thevital organs and terminate life. No testimony is more conclusive and concurrent than that of physicians who testify to the excellent effect of the Bitters in this disease. Persons who incur a wetting in rainy or snowy weather, and who are exposed to draughts, should use the Bitters as a preventive of ill effects. Malaria, dyspepsia, liver and kidney trouble, nervousness and debility are also among the allments to which this popular medicine is adapted. For the infirmities, soreness and stiffness of the aged it is highly beneficial.
